catalogue

Zonair3D™ seeks to create pure air, become a lung for our cities and improve people's quality of life.

PURE

It all started with a bubble, our Bubble Pure Air™, a unique and iconic product by Zonair3D™.

Our entire range of products is based on Bubble Pure Air™, the first portable space in which you can breathe ISO5-certified pure air, meaning that Bubble Pure Air™ can be used as a field operating theatre.

AIR, JUST

In order to win the trust of our clients, all our products are certified by official standards and clinical studies published by leading doctors in their field.

BREATHE

We are passionate about creating pure air and improving quality of life; from schools to offices and industry to public spaces, such as shopping centres, cinemas, car parks, swimming pools and, naturally, our homes. Zonair3D™ has designed a range of products tailored to suit every need.

AIR+ RANGE

Air+ is an innovative air purification system that brings pure air to building interior.

It is a ready-to-use, “plug & play” range.

These **99.999% portable air purification** equipment for indoor spaces, include flow rates from 85 to 600 m³ / h and its exclusive system filters and purifies polluted air, generating **pure air free of suspended particles of up to 0.1 microns** and Ozone and, with a reduction of **toxic, irritant and carcinogenic gases** to comfort levels.

The following features make Air+ excellence in indoor air quality:

- Tightness
- Maximum proven efficiency
- Highest filter duration

This range includes these flow rates:

- Air+ 50 (up to 85 m³/h)
- Air+ 300 S (up to 300 m³/h)
- Air+ 430 S (up to 430 m³/h)
- Air+ 600i (up to 500 m³/h)

AIR PRO RANGE

Air Pro are **innovative air purification systems** that bring pure air to **building interior**. Through the air extraction system of the building, purified air is 'exhaled' outdoors, converting these buildings into a **lung for the cities** and urban centers.

- Spaces **free of environmental ozone**.
- Eliminates **99,995% of the pollutant particles** harmful for health.

This system has been designed to meet the **air ventilation and purification needs** of all sorts of installations, ranging from **private homes** to **the tertiary sector**.

This product range **requires installation** in a false ceiling or exposed installation.

Through the air extraction system of the building, purified air is 'exhaled' outdoors, converting these buildings

into a **lung for the cities** and urban centers.

- **Reduces toxic**, irritant and carcinogenic gases at **comfort levels**.
- This range includes these flow rates:
- Air Pro 100-300 (up to 300 m³/h)
 - Air Pro 500-800-1200 (up to 1200 m³/h)
 - Air Pro 2000-3000 (up to 3000 m³/h)

BUBBLE PURE AIR RANGE

Bubble | Pure Air is the first **portable space** in which it is possible to breathe **99,995% pure air** in continuous regeneration — **free of contaminating particles** and bacteriological and allergenic agents — with **gas pollutant reduction to comfort levels**.

This **portable and easy to assemble** space exceeds the most demanding criteria recommended by the WHO in terms of particle filtering.

It also offers the **maximum guarantee against virus stratification**.

As a result, it has received **ISO 5 certification**, which turns it an optimal space for **Clean Room applications**.

This range includes these:

- Bubble Pure Air STANDARD
- Bubble Pure Air TEAM
- Bubble Pure Air HOME
- Bubble Pure Air SURGERY

Breathe pure air in movement

AIR MOVE RANGE

Air Move is the first portable device that allows you to breathe 99.9995% pure air in continuous regeneration inside vehicles - free of polluting particles, bacteriological and allergenic agents - and with reduction of polluting gases to comfort levels.

Ideal for professional use, in cars, vans, trucks and machinery.

Located inside the cabin, it allows you to enjoy pure air in continuous recirculation in seconds, with multiple installation possibilities.

It has a 12V DC power supply with a plug-in connector.

This range includes these:

- **AIR MOVE +**
- **AIR MOVE PRO**

Designed to prevent diseases related to the inhalation of pollutants, VOCs, particles and other pathogens.
