

ZONAIR3D™
PURE AIR, JUST BREATHE

Sport

Zonair3D™ seeks to create pure air, become a lung for our cities and improve people's quality of life.

PURE AIR, JUST

We are passionate about creating pure air and improving quality of life; from schools to offices and industry to public spaces, such as shopping centres, cinemas, car parks, swimming pools and, naturally, our homes. Zonair3D™ has designed a range of products tailored to suit every need.

ZONAIR3D is a Spanish company established in all 5 continents whose objective is to develop air purification systems.

In partnership with the best institutions and scientific research centres, we have developed air purification systems aimed at providing responses to latent requirements in fields such as health, welfare or construction among others.

In order to win the trust of our clients, all our products are certified by official standards and clinical studies published by leading doctors in their field.

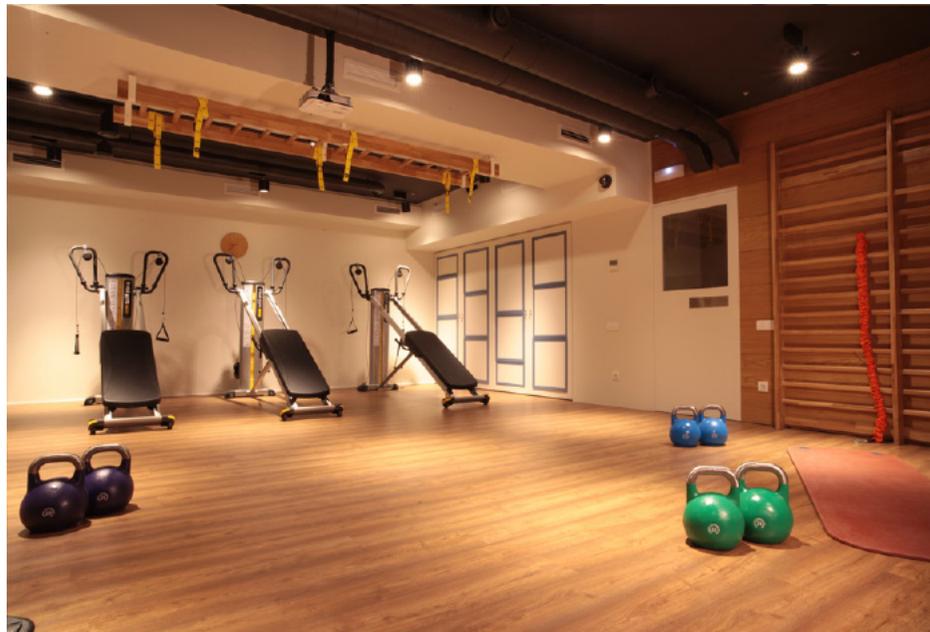

BREATHE

Air is the basic element for the production of energy. While doing exercise, breathing is essential, since we need to inhale a higher amount of air than that we usually do, and if this air is pure, performance multiplies and recovery speeds up so to keep on evolving and improving everyday, like a top level sports person.

Situation:

- Deterioration of environment and air quality
- Doing sport in polluted environments with bad air quality is harmful for your health
- Respiratory and cardiovascular systems are the most affected, as lungs need to filter an air in poor condition
- There are risks of developing diseases such as athlete's asthma
- The composition of the air in indoor spaces where people play sports is poor in oxygen, and the CO₂ levels and other gases are high if compared to outdoor levels

* "Ergometría y cambio climático", study on the usefulness of BUBBLE| pure air, made by the Catalan Sport Council and the Quiron Hospital Group.

ZONAIR3D® |

SOLUTIONS AND BENEFITS: SPORT

"The most innovative recovery treatment for athletes."

APPLICATIONS

- Personal trainer
- Recovery treatment
- Physiotherapy treatment

BENEFITS

- **Clean air**, free from particulate and gaseous pollutants, in continuous recirculation.
- **It helps** having the best condition for the respiratory system to work properly and, therefore, **it improves the results of physical exercise**.
- **It improves the recovery process** following physical exercise as shown by the **reduction in lactic acid in the blood (22%) and glycaemia (10%)**.
- It has **no contraindications or side-effects**. Pure air improves quality of life for those who breathe it. The longer you breathe pure air, the greater the benefits.

ZONAIR3D® | SOLUTIONS AND BENEFITS: SPORT FACILITIES

"Improve your respiratory system while exercising."

APPLICATIONS

- Yoga rooms
- Spinning rooms
- Wellness rooms
- Massage rooms
- Swimming-pools
- Dressing rooms
- Gyms

BENEFITS

- **It improves symptomatology** of patients **with breathing and allergenic problems.**
- **It revitalizes** the natural removal mechanisms of **toxins and dead cells**
- It enhances the **antioxidative mechanisms** in the body when doing physical exercise
- It provides a natural **anti-age treatment**
- **It reduces the chlorine level** in humid environments

RECOMMENDED PRODUCTS

**BUBBLE
PURE AIR**

The first portable space in which is possible to breathe 99.995% pure air in continuous regeneration -free of contaminating particles and bacteriological and allergenic agents- with gas pollutant reduction to comfort levels.
